## Guaranteed ASSET PROTECTION

In the first several years of ownership, the insurance value on your RV may be less than what you actually owe. Most insurance policies only cover the actual cash or market value of the unit. Total-loss insurance payouts may leave you with a financial gap in coverage – owing a loan balance even after the insurance settlement. **Asset Protect closes that financial gap\*** and provides you the peace-of mind protection you deserve.

Coverage options are available for new and used units. Ask your dealer for details.

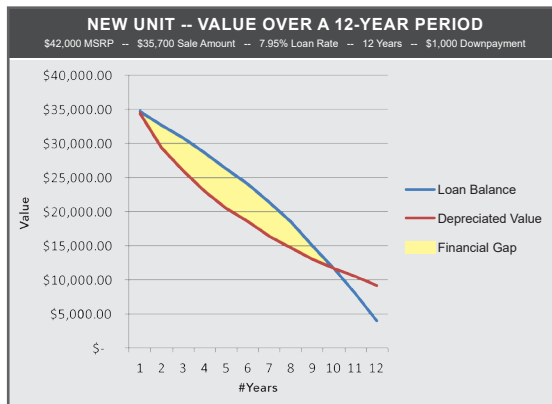

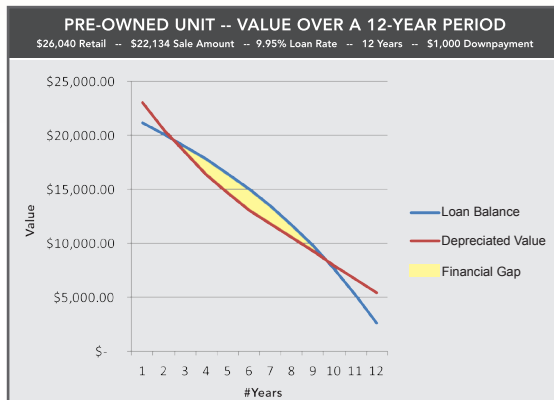

How

### GAP COVERAGE WORKS
